

Questions for reflection.

(not intended to be a sermon outline)

You are encouraged to use these as part of a study/devotional/reflection time through the coming week.

You are also encouraged to participate in the Explore Class after worship where we will use these as a discussion starter. Bring your questions as well for discussion.

- 1. What has this sermon series on prayer shown you personally? What are you learning that is stretching you? Helping you to be more comfortable in prayer?*
- 2. Did praying through the passage on the Lord's Supper open up anything new to you? What might praying it make you face that simply reading it might not?*
- 3. Many of the scripture passages used in the sermon series have been familiar ones. Have you understood anything new or different in these passages because of taking the approach of praying them instead of reading them for knowledge?*
- 4. Have you practiced "praying scripture" as we have gone through this sermon series? Are you comfortable with it? What is most helpful to you about it?*
- 5. What other Scripture passages might be helpful if "prayed through?" What questions do you have around this topic or practice?*
- 6. Have you found you reflect on your life more as you pray scripture? Do you find you resist getting too intimate with God because reflection brings what the passage is talking about too close to home?*
